HOME ENERGY EFFICIENCY UPGRADES

Attics

Applied under the roof deck or attic floor, creating a tight seal preventing air leaks

Interior / Exterior Walls

Creates a continuous air, vapor, and moisture barrier (**unlike fiberglass insulation**)

Basement / Crawl Space

Prevents moisture and reduces humidity to help prevent mold issues

HVAC Duct Work

Improve efficiency of the HVAC system to reduce energy cost

Spray foam insulation improves indoor air quality and reduces energy costs!

The 25C Tax Credit covers
30% of home energy efficiency upgrade costs up to \$1,200 for projects completed!

Take advantage of tax credits every year until 2032.

25C TAX CREDIT REQUIREMENTS
